

**Gila County ESA has an
opportunity for you to make a
little extra money!**

**How much? \$75.00 now and \$175.00 in May.
A total of \$250.00**

What do you have to do?

Agree to take a background survey online, complete a Math test now and again in May and let us observe a math lesson now and in the spring (called RTOP, Reformed Teaching Observation Protocol). Nobody sees results. We aggregate them for comparison to our participating teachers.

That's it!

Why?

Gila County ESA has been awarded an Intel Math grant from the Arizona Department of Education (Math and Science Partnership Grant) to provide professional development to K-8 teachers.

We need K-8 teachers for the control group.

What do I do now?

If you are interested in serving as a control group subject, e-mail Gail Gorry, grant project director, at ggorry@gilacountyaz.gov as soon as possible. She will send a link for you to take the background survey. We need to be able to match control teachers to the participating teachers by age, grade level taught, race, etc.

All questions regarding the control group should be directed to Gail Gorry at (cell) 928-200-7097 or (office) 928-472-5373.
